## STUDENT HEALTH EMERGENCIES OR MINOR INJURIES

If a student or other person has a health emergency, call 911 and request an ambulance. If administering first aid, direct someone else to call 911 and have them confirm that the call was completed. Do not assume that someone else has called 911 unless you observe them do it or they tell you they have made the call. When in doubt, err on the side of safety and call 911.

Ensure that the General Manager, other Keisho Center staff member, or a Core Group member is aware of the health emergency.

If a student or other person has a minor injury that requires a band-aid or ice pack, administer first aid using supplies from one of the first aid kit located either in the Library Room or with the Hall Monitor on the 3<sup>rd</sup> floor.

Record all minor injuries on the First Aid Log located inside the first aid kit.
